

Quadrilaterals

Parallelogram

1. Opposite sides are $\parallel$
2. Opposite sides are $\cong$
3. Opposite angles are $\cong$
4. Diagonals bisect each other
5. Consecutive angles are supplementary

Rectangle

- All 5 properties of a parallelogram
- Diagonals are $\cong$
- Angles are right angles

Rhombus

- All 5 properties of a parallelogram
- All sides are $\cong$
- Diagonals are $\perp$
- Diagonals bisect opposite angles

Square

All properties of a parallelogram, rectangle, and rhombus
